## Experiential Learning Trip to Kanodar Post Office

Date: 16-01-2025

**“In learning you will teach, and in teaching, you will learn.” – Phil Collins.**

On 16/01/2025, the students of Standard 3 were taken on an educational trip to the Kanodar Post Office as part of their experiential learning activities, connecting to their English and EVS chapters. This visit aimed to give the students hands-on exposure to how post offices function and to help them understand the importance of traditional communication methods in the modern digital age.

Upon arrival, the students were warmly welcomed by the post office staff, who conducted an engaging and informative presentation. The session covered the various services offered by the post office, including mailing letters, parcels, and financial services. The staff explained the step-by-step process of how letters and parcels are sorted and delivered, sparking curiosity among the students.

A highlight of the visit was when the students participated in a practical activity. Each student had written a postcard for their parents beforehand, which they got to post themselves. This activity provided a unique and memorable experience, as many of the students had never engaged with letter-writing or traditional mail services before.

The trip proved to be an enriching experience for the students. It not only reinforced the lessons from their English and EVS chapters but also introduced them to the importance of preserving and appreciating traditional means of communication in today's digital era. The students returned with a deeper understanding and a sense of excitement about what they had learned.
