## Field Trip to Mamtamandir School, Palanpur

05/10/2024

**"There needs to be a lot more emphasis on what a child can do instead of what he cannot do"**

A field trip was organized for students of classes 6th, 8th, and 9th to Mamtamandir School, Palanpur, on 05/10/2024, a school for specially-abled children. This institution runs three distinct schools catering to children who are blind, deaf, or have intellectual developmental disorders (IDD).

During the visit, our students had the opportunity to observe the unique teaching methods used with these children. The deaf students were learning through sign language, the blind students were being taught using Braille, and the IDD children were engaged in learning basic life skills like brushing, clapping, and dressing.

In addition to formal education, the school also provides vocational training in areas such as printing, pottery, light engineering, and carpentry. This equips the students with practical skills for future self-sufficiency.

Our students were deeply inspired by the resilience and determination of the specially-abled children, realizing that if they can overcome challenges to learn and thrive, so can they.
